Treat. Train. Transform.

Providing No-cost Reconstructive Surgery for People in the U.S. Living in Poverty

Each year, thousands of men, women and children are unable to receive life-changing surgical care for many reasons. Mission Plásticos provides reconstructive surgical care, free of charge, to uninsured and underinsured patients through our **Reshaping Lives America** program.

In October of 2021 Mission Plásticos' Reshaping Lives America partnered with Sientra to create **Reshaping Lives: Full Circle™** — the first large-scale nationwide program providing **no-cost breast reconstructive surgery for post-mastectomy women in the U.S. living in poverty**. The program pairs volunteer board-certified plastic surgeons with U.S. patients in need, and is rooted in our belief that **every woman deserves a full journey of care**, regardless of her economic situation.

Patients seeking reconstructive surgery must meet the following criteria to qualify for the program:

- Earn less than \$36,450 for an individual or \$69,375 for a family of four
- No health insurance, surgery not covered by insurance, or unable to afford co-pay
- Ineligible for any publicly sponsored programs that would provide surgery, including Medi-Cal, Medicare, or Healthy Families

Additionally, all potential patients will need to be evaluated by a Mission Plásticos doctor to determine eligibility for surgery.

If you, a family member, or someone you know is interested in reconstructive surgery and meet the above criteria, please contact Mission Plásticos to schedule an appointment for a screening visit.
